

## Big sound. Small space.

As home theater moves upstairs into multipurpose living rooms, the need for refined, clean reproduction of low frequencies becomes extremely important. Leon's Aaros Series subwoofers are incredibly compact and offer more tonal balance than traditional large subs. The A8-400 subwoofer features an 8" rigid, long throw driver powered by an ultra-efficient 400 on-board amplifier to produce fast, tight and musical bass. Available in satin black or pearl white, and complete with fully adjustable crossover and phase controls, Leon's A8-400 offers extreme performance and versatility in any space.

- Small form factor sub fits seamlessly into any installation
- Powered by an ultra-efficient 400 watt on-board amplifier
- Features fully adjustable crossover and phase control
- High-excursion driver reproduces low-frequencies with impeccable clarity and precision
- Fully-sealed enclosure produces tight, accurate bass response
