

SONANCE LANDSCAPE SERIES

LS12ESUB IN-GROUND SUBWOOFER

Product Family Overview

The LS12ESUB is the second generation of the 70 Volt Sonance Landscape Series in-ground subwoofer. The LS12ESUB is the perfect partner for the LS68SAT, delivering higher quality sonic performance and higher SPL that is scalable for even the largest space. The SLS SAT & SUB system provides a superior landscape aesthetic enabling

camouflaged speakers to evenly immerse a space with extraordinary stereo sonic performance in any terrain. The robust professional-grade drivers and electronics coupled with our proprietary Ultra-Violet (UV) resistant composite enclosures ensure years of enjoyment. 70 Volt systems allow for extremely flexible and expandable landscape designs.

Features and Benefits

- Part of a scalable system that delivers perfectly even coverage and unequalled sonic performance throughout any sized space
- Below-ground subwoofer provides superior bass while seamlessly blending into the landscape environment
- Robust construction designed to handle the most extreme conditions
- Tuned port / deep, powerful, tight bass
- 12" woofer
- 300 Watt transformer
- Front-firing band-pass design
- 1/2" thick (LDPE) non-corrosive sealed enclosure
- 70 Volt systems allow expandable landscape designs
